No. 163 of 1860.

Revenue Department.

From the Commissioner in Sind,

To His Excellency the Honorable Sir George Russell Clerk, *K.C.B.*,
Governor, and President in Council, Bombay.

Dated 3rd August 1860.

Honorable Sir,—I have the honour to submit, for the information of your Excellency in Council, a Memorandum on the External Trade of Sind, with the usual Trade Returns for the year 1859-60, prepared by the Acting Deputy Collector of Customs, Mr. Maher, and to suggest that they be printed, and 150 copies sent to me for general distribution.

2. The value of the general sea-borne trade is shown to amount to Rupees 2,66,00,865, being an increase on that of the preceding year to the extent of Rupees 7,52,281.

1858-59.	
2,58,48,584	
2,66,00,865	
7,52,281	

3. The value of the Import Trade has increased by 10 per cent. or to the extent of Rupees 17,21,459, the large portion of this increase being attributable to the direct import from England of Railway Materials and Cotton Piece Goods. As the direct importation of the latter from England shows an increase of Rupees 3,43,068, so a corresponding decrease in such Goods from Bombay is shown to the extent of Rupees 2,68,268. The Imports from all the countries with which the merchants of Sind trade, show an increase, except those from Bombay, Malabar, Mekran, and the Portuguese Settlements of Goa and Demaun. Timber from Moulmein shows a large increase of Rupees 1,77,550.

4. The value of the Export Trade has decreased by 10 per cent. The value of this trade for the year being Rupees 94,73,358 against Rupees 1,04,42,726, for the year preceding. This decrease occurs principally in the Exports to England and Bombay, and chiefly in Oil Seeds, Cashmere Shawls, and Saltpetre. The export of Grain to the Coast and to the Mauritius has increased, and this article appears for the first time as an export to Australia, to which country also there has been an Export of Camels, which, according to one of the local papers, have reached their destination in safety.

5. In the Tonnage employed there is a slight increase over the preceding year, both as regards Square-rigged Vessels and Country Craft.

6. The insufficiency of landing accommodation, and the want of suitable Custom House at Keamaree, are serious drawbacks. In regard to the repair and extension of the Customs Jetty at Keamaree, which has been already sanctioned, there will be no delay, and as little inconvenience as possible to the public after the present pier is dismantled. The inconvenience of limited Wharfage must, the Chief Engineer informs me, continue during the progress of the Harbour Works. Colonel Turner writes, it will be necessary shortly to close the means of access for Country Coasting Vessels to the upper Bunder; but he proposes in lieu of that accommodation to provide temporary Wharfage upon the embankment which forms the coffer dam of the proposed Native Jetty, and a portion of the western face of the Mole south of the site of the proposed bridge will be rivetted for the same object. The importance to trade of providing sufficient Wharfage is acknowledged on all hands, but some temporary inconvenience is inevitable, though its duration and extent will be confined to the least possible limit.

7. A plan and Estimate for a Custom House at Keamaree was finally approved in 1856. The project was included (No. 51) in No. 1, Statement of the Government of Bombay Public Works Budget for 1857-58. It was not objected to by the Government of India, but it was not sanctioned in consequence of financial difficulties occasioned by the Mutinies. The sum of the estimate was Rupees 35,284, the time for completion was two years, and the expenditure during the first year was estimated at Rupees 21,000. This Custom House might be commenced as soon as sanctioned by the Supreme Government; but funds are not available in the Budget for the current year. The present building is utterly unsuitable as a Custom House.

I have the honour to be,

Honorable Sir,

Your most obedient, humble Servant,

J. D. INVERARITY,
Commissioner in Sind.

Commissioner's Office, Kurrachee, 3rd August 1860.

CALCUTTA.

37. The decrease to this port is in Salt, Rupees 1,88,493.

38. The Tonnage employed during the year 1859-60, in the External Traffic of Sind, is shown in detail in the appended Statement, viz:—

1859-60.	Arrivals.		Departures.	
	No.	Tons.	No.	Tons.
Square-rigged vessels and Steamers	101	60,994	101	60,043
Country Craft	1,555	87,102	1,476	82,604
Exclusive of Boats engaged in the Coasting Trade between Kurrachee, Khetti and Seir Gunda.				
1858-59.				
Square-rigged vessels and Steamers	96	52,927	101	56,554
Country Craft	1,493	78,384	1,553	81,622

39. Vessels drawing 19 feet 6 inches have, in the past year, entered in the Harbour of Kurrachee in perfect safety, and as many as Thirty vessels, ranging from 500 to 1,600 tons, have at one and the same time been accommodated in the Harbour, all of them swinging to their moorings, and not a single accident of importance has happened to any ship in either entering or leaving the Port.

REMARKS.

40. It will be seen from the statements that the External Trade of Sind is now nearly two and three-quarter Million Sterling, and although our direct exportations with Europe have greatly decreased during the year under review, still they continue, and with more vigour than previously, to command the attention of the mercantile Community, both European and Native.

41. The cause of this decrease in our Export Trade with Europe may be imputed to the high rates of freight that prevailed during the early months of the current year, consequent on so many Vessels being demanded for the China Expedition, a circumstance that induced upwards of a dozen ships to leave this Port in ballast for Bombay, rather than charter, on the freights offering here for Seeds, &c., direct to Europe.

42. This decrease amounts to the sum of Rupees 5,52,582. But next year, judging from the stimulus now being thrown into the Market by European capitalists, the result will be far different, and a considerable increase in our direct Trade with Europe will take place and strengthen each succeeding year. Besides we shall have added to this direct Trade, the valuable staple Wool, and with it, it is hoped, the Cotton of Cutch and the Kattiawar Provinces adjoining Sind, diverted here, by the establishment of Screw Presses now nearly ready.

43. With Bombay the Exports have also fallen off, owing to the same cause, high Freights, which naturally had a tendency to check supply while such rates prevailed.

44. Comparing the Export Trade for 1859-60 with 1858-59, it will appear, that there has been a falling off in the General Export Trade of Rupees 9,69,368, as shown in the following Statement, and which Statement embraces the same trade for the four previous years :—

GENERAL REMARKS.

45. Since the Trade of this Port and the number of Ships frequenting it have very much increased, it becomes necessary to supply more Wharfage and Landing accommodation for Goods. The insufficient provision in this respect, in many cases, has been, and continues to be, much felt and complained of by Merchants, while it is, at the same time, cause of much anxiety to the Customs Department. This evil, to some extent, will be removed at the Upper Bunder, on the completion of the Quays and Jetty under construction, or proposed to be constructed by the Harbour Improvement Works.

46. But this will not relieve the wants of Karmaree, where no further delay should be allowed to take place in the construction of the new Customs premises. The present building is so confined, and so ill-adapted to provide accommodation for the increasing wants of the Port and the consequent embarrassment and discomfort caused thereby, say nothing of the discontent that all feel, who are concerned in mercantile or other transactions with the Customs, as well as the great inconvenience and delay occasioned to the Customs Establishment itself, are evils that must produce the very worst effect on the general interests of a rapidly rising Trade, and are circumstances not unfrequently matter of painful observance and consideration to this Department.

47. Should it ever be intended that the new Custom House, long ago sanctioned, shall be erected, the present building might be made fire-proof, and converted into a ware-house for the deposit and protection of Goods.

48. As the buildings referred to are the most immediate requirements of Karmaree, the consideration of them is therefore pressed, in order that they may be no longer delayed; at least not the Custom House, as every day's experience more and more points out the growing importance for this accommodation being provided.

49. It is also to be hoped there will be no further delay in enlarging the present very insufficient and dilapidated Bunder at Karmaree. The renewal of this Bunder has already, it is believed, received the sanction of Government, and its early commencement and completion will be a great boon towards affording more Bunder and cranage-accommodation, both of which are also very urgently required.

50. The following Statement will tend to show the amount of collections at the Custom House every month, from May 1855 to April 1860, and how the realisations of the Port have increased during the five years enumerated:—

57. In the foregoing statements of the Sind Trade it has not been deemed necessary to detail all places where there has been any Increase or Decrease, but merely to notice those places, and the value of Merchandize which, to some extent, has fluctuated during the year.

W. MAHER,
Deputy Collector of Customs.

No. 4,287 of 1860.

Dated, Bombay Castle, 19th November 1860.

(Revenue Department.)

To the Commissioner in Sind.

Copy of the Resolution passed by Government on the foregoing Documents.

These papers should be printed.

2. The Trade Returns appear, on the whole, to be satisfactory. The value of the general sea-borne trade shows an increase of Rupees (7,52,081) Seven lacs fifty-two thousand and eighty-one, as compared with that of the preceding year. The value of the Import Trade is reported to have increased by 10 per cent., while the value of the Export Trade has decreased in the same proportion. This decrease appears to be attributable mainly to the high rates of freight which prevailed during the early months of the current year consequent on the demands for Vessels for the China Expedition. The Governor in Council, is, however, gratified to find that the Acting Deputy Collector of Customs anticipates that next year the result will be far different, and that a considerable increase will take place.

3. Extracts (paragraphs 45 to 49) of Mr. Maher's memorandum, and paragraphs 6 and 7 of Mr. Inverarity's letter on the subject of the insufficiency of Landing accommodation, and the want of a suitable Custom House at Keamaree, to be transferred to the Public Works Department.

4. The Collections at the Custom House, the Governor in Council observes, are more than double what they were in 1858-59, and nearly six times as much as in 1855-56.

A. D. ROBERTSON,
Acting Secretary to Government.
